Report Overview

Reasons to Purchase:

TSG's *Tablet POS: Merchant Insights and Company Research* report is a robust offering of quantitative and qualitative insights from the U.S. SMB marketplace. Merchants with under \$2 million in sales were presented a Tablet-POS concept in an effort to gauge the level of interest and values associated with the potential use of a tablet point-of-sale system. In addition to these valuable merchant-level findings, this report also includes market research on tablet POS providers and their offerings. This report offers an incredible value to those who are interested in the growing tablet-POS market.

Section 1: SMB Survey: Tablet POS Interest & Attitudes

- Survey results from 288 qualified owners/managers across five different merchant vertical segments, providing data on the level of interest in a *Tablet-POS* concept, what attributes would be most valued, as well as the preferred acquisition methods and price points

Section 2: Tablet POS Focus Group Findings

- Qualitative findings from 22 business owners/managers at target companies with under \$2 million in sales. Offers valuable insights into the perceptions and user issues regarding a *Tablet-POS* concept. Also includes importance/favorability ratings on 38 Tablet-POS functions and 11 terminal accessories

Section 3: Tablet POS Market Research

- Overviews on five tablet-POS providers (Square, Revel Systems, ShopKeep, NCR Silver, Erply) including a comparison on the availability of 38 POS functions and 12 accessories for each company's tablet solution

Section 4: Merchant Acquirer Tablet POS Competitive Analysis

- A one-slide, high-level comparison of eight merchant acquirers' tablet-POS initiatives

Section 3: Tablet POS Market Research	Page 50
Section 4: Merchant Acquirer Tablet Competitive Analysis	Page 52

Section 1: Introduction & Methodology

A *Tablet-POS* concept, similar in functionality and composition to [Square Register/Stand](#), was presented to small business owners and those responsible for small business payments (details on the following page) in order to know how merchants felt about using a tablet as a POS terminal and what functions they would prefer in a tablet POS.

The *Tablet-POS* concept was described with these key benefits:

- Easy to use touchscreen tablet with card reader
- A simple loyalty program
- Easy to use offers
- Integration with analytics
- Ability to save on processing fees
- Quick, do-it-yourself installation

The *Tablet-POS* concept was also described using three value statements in order to gauge what was most important to merchants:

Description A: *An inexpensive, all-in-one, tablet-POS*

Description B: *Tablet-POS with data driven functionality, including loyalty, coupon/offers, customer metrics*

Description C: *Tablet-POS that works with various apps such as Yelp, Open Table, etc.*

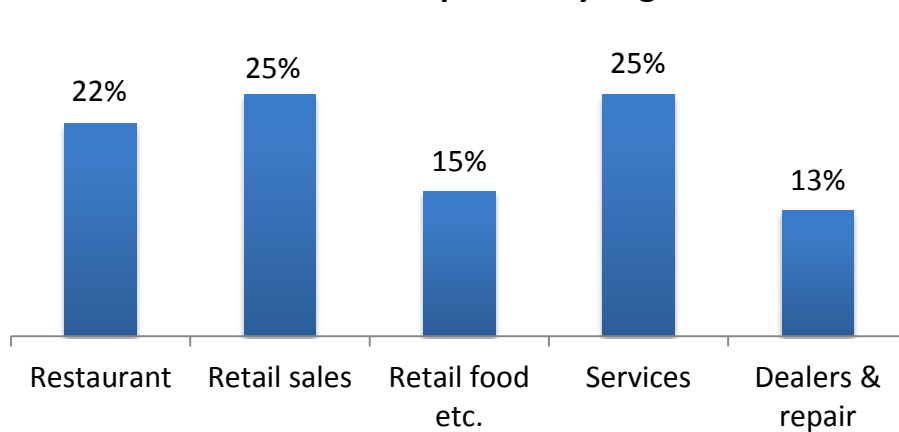

Section 1: Introduction & Methodology

- An online survey of small business owners and those responsible for small business payments was conducted.
 - Responses were sourced via a pre-recruited research panel of U.S. businesses and consumers.
- Respondents were screened for owner/manager status, annual sales under \$2 million, and business focus in five segments (restaurants, retail sales, retail food/liquor, business/personal services, and auto/boat/mobile dealers/shops)
- A total of 288 qualified online questionnaire responses were obtained across the five segments.

Sample Demographics:

- 70% of respondents were business owners, and 30% were qualified management staff responsible for in-store payments.
- 34% of businesses had sales under \$100k, 34% between \$100 and 500k, and 32% between \$500k-\$2 million.

Distribution of Responses by Segment

Distribution of Responses by Annual Sales

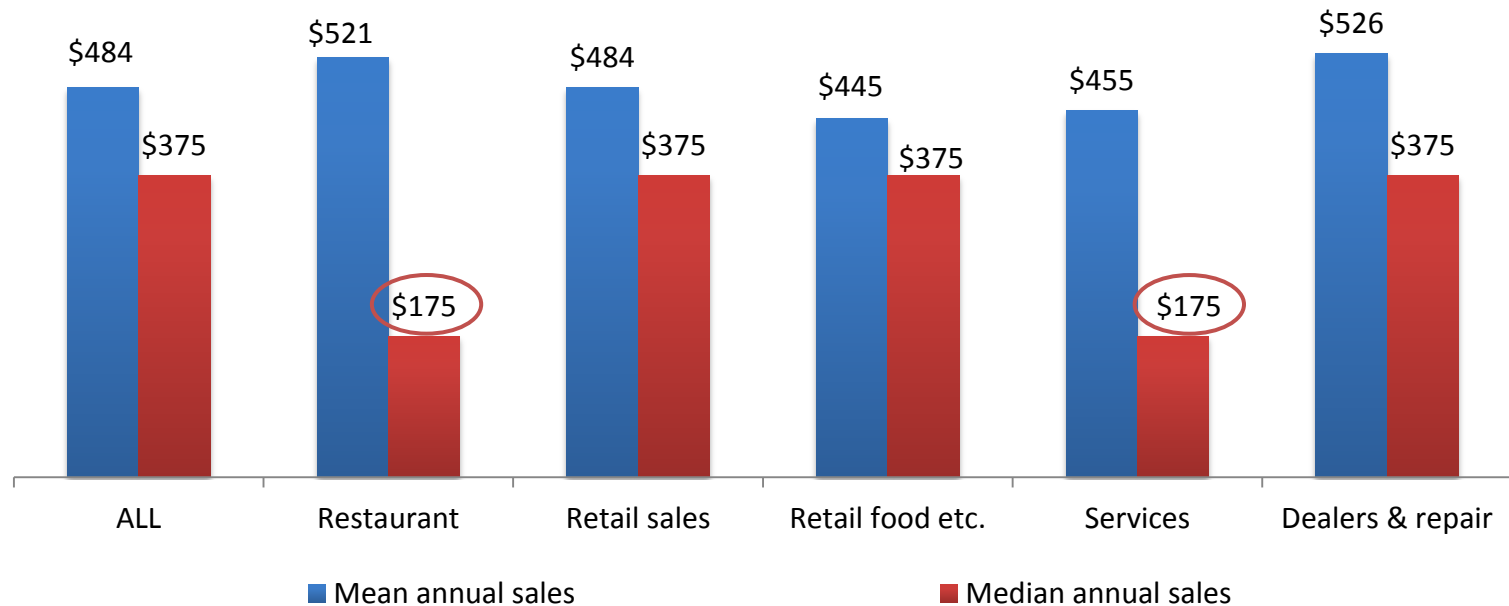

Section 1: Introduction & Methodology

Sample Demographics: *Size Parameters*

- Restaurants and service organizations in the sample tended to be smaller organizations; mean sales were similar across segments. In addition:
 - Most firms had just one location, although retail food/liquor stores had a median of 3.5 locations.
 - Median number of employees was 7 across all segments.
 - Mean annual employee turnover was highest among restaurants (10.9%) and lowest at service firms (4.4%) and dealers/shops (6%).

Mean and Median Annual Sales By Segment

\$ Thousands (note: calculated based on grouped data)

Section 2: Focus Group Approach

Two focus groups were conducted in a U.S. metropolitan market with more than four million people (U.S. top 15) among 22 business owners/managers from target companies with under \$2 million in sales.

- Group participants included services (10), retail (8), restaurant (3) and repair/dealer (1) firms.
- Participants were pre-screened for eligibility and were recruited via cold calling and through a proprietary database.
- Please note that focus groups, because they are small samples of purposely-recruited participants, cannot provide projectable results such as a sample survey. However, their qualitative results are most useful in exploring participant perceptions and identifying unanticipated user issues.

About TSG

The Strawhecker Group (TSG) is a management consulting company focused on the electronic payments industry.

TSG's Service Groups

Payments Strategy - Payments Strategy encompasses the full spectrum of advisory services within the Payments Industry. The depth of these services is built on deep industry knowledge - the Partners and Associates of the firm have an average of over 20 years of industry experience. With clients from card issuers to merchant acquirers, TSG has the experience and expertise to provide real-time strategies.

Transaction Advisory - Whether buying or selling, seeking investment funding, or planning your company's exit strategy, TSG's experience can be critical to achieving success. TSG has performed more than 100 Payments Company Valuation and/or Business Assessments in the past three years - ranging in value from \$1 million to \$1 billion.

TSG Metrics - TSG Metrics, the strategic research and analysis division of TSG, provides the Payments Industry with highly focused research and industry-wide studies. TSG Metrics takes data, boils it down to information, transforms it to knowledge and presents it to provide wisdom to its client partners.

TSG's Unparalleled Experience

TSG consists of Industry leaders with extensive experience leading teams through explosive growth periods, mergers and acquisitions, and international and domestic expansion within the Payments Industry. Both Partners and Associates of the firm have held key senior management positions at leading industry companies including First Data / First Data International, Visa Inc., MasterCard, TSYS, Humboldt Merchant Services, WorldPay, Heartland Payment Systems, Cardservice International, iPayment, Alliance Data, RapidAdvance, Accenture Consulting, Redwood Merchant Services, Chase Paymentech, as well as other leading financial institutions and Payments companies.

TSG's Influence Shapes the Payments Industry

Over the last three years, TSG has completed over 400 projects for more than 200 different clients including financial institutions, merchant acquirers, card issuers, card associations, technology providers, ISOs, processing companies and the investment community. Additionally, the firm and its Associates sit on several industry committees whose focuses range from emerging product development to governmental regulation advisement.
